

SAIL Results 2025

We are incredibly proud of our Year 11 students and all they have achieved this year. Their results reflect not only academic success, but also the resilience, commitment and maturity they've shown throughout their time with us.

These outcomes are the result of sustained hard work, the support of their families, and the dedication of our staff who have guided and encouraged them every step of the way. There have been some exceptional individual performances, and as a year group, they've done themselves proud.

At the heart of our approach is a belief in nurturing confidence and self-belief—giving students the space to grow, take risks, and rise to challenges. This year's results are a wonderful reflection of that ethos in action.

As a school, we continue to build and refine our Key Stage 4 curriculum and options offer to ensure it meets the needs and aspirations of all our learners. Alongside a strong academic core, we are expanding our vocational offer—providing students with high-quality, hands-on learning experiences that prepare them for a wide range of future pathways. Whether students are aiming for further study, apprenticeships or employment, we are committed to offering a curriculum that is ambitious, inclusive and future-focused.

Congratulations to each and every one of them!
