

English – Newspaper articles about environmental issues (pollution) of rivers and oceans.

Reading a range of stories linked with rivers – classical and modern.....we may even try a play for 'Wind in the Willows'!!!!!!!

Mathematics

In maths, we work on individual targets for fractions, decimals and percentages. Understanding parts of a whole, numbers and shapers.

Learning about numbers right of the decimal point through money.

Science

When we are in the New Forest – 'the Rec sessions' we will be exploring the water cycle alongside geography.

Back in school, we will be consolidating our understanding of states of matter as we investigate 'which liquid flows faster'

Music

In our ALL NEW MUSIC LESSONS we are learning about tempo using tuned and untuned percussion instruments

Humanities

Learning about the rivers of Salisbury and the World – from source to sea. We will visit Salisbury's rivers throughout the term.

RE – stories from sacred texts based on rivers

PSHE

Caring for the environment – gardening and nature garden development; money management; first aid; water safety

Class thrive sessions – these support our personal development whilst learning to follow rules and work together as a group.

Computing – Online Safety to understand how to stay safer when using games and the internet

P.E. – Rounders & Cricket

Also Seahorse and Turtles are swimming every Thursday

Learning outside – see Class Dojo for Rec/Trip days

Art

Art – printing using different media
DT

We will be developing our sewing skills with some of us using a sewing machine (under supervision).
